

Find what misaligned execution costs you. Then fix it.

CHF 25,000

Flat price, whatever your company size. Only 8 places.

What you get

- The Audit: where execution breaks down, and what it costs each year
- The Roadmap: a clear action plan with owners and priorities
- The Executive Debrief: a leadership session to agree what to fix first

How it works

1. Apply online (2 minutes)
2. A 15-minute call with Lisa Garrelts
3. Five weeks from start to final debrief

Why it matters

- People think and work in different ways.
- When systems expect one way of working, money is lost quietly.
- NeuroOs shows where, how much, and what to do.

Good to know

- No employee-level or sensitive personal data is ever needed
- Swiss data protection and NDA included
- Places are reviewed in the order received
